

PREPAREDNESS REDefined

COMPANY INTRODUCTION

Perses Consulting is a trusted leader in emergency management planning, training, and exercise services. Our team specializes in crafting comprehensive Emergency Operations Plans, developing HSEEP-compliant exercises, and producing actionable after-action reports that drive meaningful improvements. With extensive experience supporting some of the largest and highest-risk jurisdictions in the country, we have contributed to every facet of the National Preparedness System.

From planning and analysis to training, exercises, accreditation support, and surge support, Perses Consulting delivers expert solutions designed to enhance resilience and preparedness, ensuring our clients are ready to face any challenge with confidence.

PAST PERFORMANCE

Asheville, NC: Partnered with the Asheville Fire Department Emergency Management Division to develop a comprehensive planning, training, and exercise program, strengthening the city's preparedness and resilience.

Buncombe County, NC: Delivered expert guidance in developing Buncombe County's Emergency Operations Plan and Continuity of Operations Plan.

City of Fairfax, VA: Provided the Office of Emergency Management with ongoing planning, training, exercise development, and EMAP Accreditation support services.

Florida Division of Emergency Management (FDEM): Facilitated a multi-day functional exercise evaluating the ability of Florida's Regional Type-3 AHIMTs to integrate and operate as a single Type-2 AHIMT.

Houston, TX: Delivered comprehensive emergency management planning services to the Office of Emergency Management and supported the attainment of EMAP accreditation.

Maryland Center for School Safety (MCSS): Managing a multi-year exercise contract to deliver statewide exercise initiatives, enhancing school safety preparedness across Maryland.

Washington, DC: Since 2019, provided direct project management, planning, training, and exercise support to the DC Homeland Security and Emergency Management Agency (HSEMA).

Washington Metropolitan Area Transit Authority (WMATA): Supporting WMATA's Consequence Management Team through a multi-year exercise series under the Metro Integrated Command and Control Center initiative.

DIFFERENTIATORS

Experienced Professionals: Our team consists exclusively of full-time employees with years of expertise across all facets of emergency management, ensuring consistent, high-quality service delivery.

Collaborative Methodology: Acting as an extension of your project team, we work together with clients to achieve mission-critical objectives seamlessly and efficiently.

Comprehensive Solutions: From planning and training to exercises and after-action reporting, we provide end-to-end support tailored to the unique challenges of each client and jurisdiction.
